Marco Casanova

Independent Senior Software Engineer

Munich, Germany · marco.casanova.de@outlook.com · github.com/marcocasanova-dev

I help product teams rescue and modernize production systems built with TypeScript, Python and PostgreSQL. 11+ years of production experience, based in Munich, Germany (Europe/Berlin · CET/CEST).

FEATURED CASE STUDIES

Mobile Commerce Platform 2026

Senior Software Engineer

Delivered core mobile-commerce journeys end to end across German and Austrian markets, from customer state and cart logic to checkout, CMS, and loyalty flows.

`React Native · Expo · TypeScript · Node.js · TanStack Query · CI/CD`

Industrial IoT Monitoring Platform 2024

Frontend Developer · Employer: Kewazo

Made machine and sensor information accessible through a production interface used for operational monitoring, while improving the maintainability of the supporting software and operational workflows.

`Svelte · Python · FastAPI · WebSockets · D3.js · WebGL · TimescaleDB · Bash · Linux`

Clinical Imaging Data Platform 2024

Software Engineer

Helped make clinical imaging information searchable and usable through a maintained product while supporting controlled data access and audit-ready reporting.

`React · Python · FastAPI · PostgreSQL · DICOM · OpenSearch · AWS · Docker · Ansible`

AVAILABILITY

Available now for one new engagement · Munich hybrid or Europe remote
